## SUMMARY

Skilled MERN Full-Stack Developer with expertise in backend technologies including Node.js, Express, and MongoDB, and frontend development using React.js, JavaScript, and modern tools. API integration, and performance optimization. Collaborative and detail-oriented with a passion for creating seamless user experiences.

## PROJECT

### ShopSphere

Dec 2024 - Jan2025

Developed a dynamic e-commerce web application using React.js, Redux Toolkit, and Redux-Saga for state management. Integrated React Router for seamless navigation and DataTables for efficient product listing. Utilized Swiper for interactive carousels and connected with REST APIs for real-time data updates. <https://shopsphere-y9kc.onrender.com>

### Babycare project

Nov 2024 - Dec 2024

Developed a web application to assist parents in managing baby care routines efficiently. Built using Express.js, MongoDB, and Handlebars (HBS), the application features secure user authentication with bcrypt and express-session, file uploads with Multer, and automated email notifications using Nodemailer. Implemented form validation with Password Validator and environment configuration with Dotenv for enhanced security and maintainability & project hosted on render. <https://babycare-31o8.onrender.com>

### News-App

Aug 2024 - Sep 2024

Developed a responsive news application using React.js and React Router for seamless navigation. Integrated NewsAPI for real-time news updates and implemented infinite scrolling for an enhanced user experience. Ensured optimal performance with testing libraries and Web Vitals monitoring.
